

# How To Make My Snowman

By: Alivia 6A

1. The first step I did to make my snowman picture was find a background. For the background I used the color #ccffff.
2. Then I made three, white balls. The outline color is white and the size is 1. The bottom one was about two and one-half inches wide and tall. The middle one is about two inches wide and one and one-fourth inches tall. The very top ball is about one and one-half inches wide and tall.
3. Then I made a black hat out of rectangles. First I made a rectangle about one inch tall and one and one-half inches wide. Then I added a rectangle to the right side which is about three-fourths of an inch long and one-half of an inch wide. Then you do the same thing on the other side.
4. Next you make two arms in the middle of your second ball. They should both be the color #663300. Both arms are about one and three-fourths inches long. After you draw your arms you must put three fingers on the ends of your arms. They should be about 90 degrees apart. They should all be about one-fourth of an inch long.
5. Now it is time to make the nose. The nose is the color #ff6600. To make the nose you have to go to your shapes and click on the triangle. Once you do that you will make your nose. The nose is about one-half of an inch long and one-fourth of an inch wide. Now you are done with the nose.
6. Time for your mouth! Now for your mouth you must go to your shapes and click on the circle. After that you will make each of your circles about one-half of a centimeter wide and tall. You need to make 6 circles. The circles need to be black and at the bottom of your top ball. Now you must put the circles together to form your mouth. Now you are done with your mouth!
7. Time for the eyes! For the eyes you must make two circles about half of a centimeter wide and tall. They must be black. Then you put your eyes at the top of your head. You put them about one-half of a centimeter apart. Now your done with your eyes!
8. Now the buttons. To make the buttons you must start out by making three circles. The circles will be about one-half of a centimeter wide, tall and apart. You need to make them black also. Done with the buttons!
9. Time for the scarf! For the scarf you must change your size to 15 and color to #ff33cc. Then you make a line around the neck. After that you must make a line coming down from the right side of your snowman. Then you make another line right next to the first line coming down. Now you must go to your shapes and make it to where it is on the circle. Now you must make poke-a-dots! You must have 12 poke-a-dots. Your poke-a-dots are various sizes. They are all over the scarf. The polka-dots are yellow. Now you are done with your snowman!
